RED SONJA AND BARBARELLA CROSS PATHS FOR THE FIRST TIME!

RISING STAR WRITER HOMERO RIOS DISCUSSES INSPIRATIONS AND MORE

Homero, RED SONJA / BARBARELLA is your daring Dynamite Debut. You've been building up your career in comics, and a lot of your great stories to date have been published in the legendary *Heavy Metal*. Some of the earliest English translations of *Barbarella* ran in that magazine in the late 1970s. Does this project feel like a bit of a natural jump for you through that lens?

HOMERO: It really does. I spent almost 14 years writing for *Heavy Metal*, and I honestly never stopped to think that Barbarella had already been part of that magazine's history long before I arrived. Once you pointed it out, it felt like one of those strange full-circle moments comics occasionally gives you.

Heavy Metal gave me the freedom to explore science fiction, horror, fantasy, and plenty of stories that lived somewhere in between. Writing *Barbarella / Red Sonja* feels like a natural continuation of that path, although the responsibility is very different. Creating original worlds is one challenge. Stepping into worlds that readers have loved for decades is another thing entirely. That responsibility was exciting from day one.

A lot of your bibliography so far has spanned from science fiction to fantasy and beyond. Now you're juggling two characters that represent both of those spheres. Are there any particular influences you pulled from on the two separately? And how are you approaching those two worlds colliding and/or melding in ways?

HOMERO: One of the first decisions I made was to stop thinking about genres. I wasn't interested in writing "science fiction meets fantasy." I was interested in writing Barbarella and Red Sonja.

For Barbarella, I kept coming back to Jean-Claude Forest's original vision. There's a sense of curiosity and playfulness that makes her fearless in the face of the unknown. She doesn't simply survive strange worlds – she enjoys discovering them.

With Sonja, my starting point was the sword-and-sorcery tradition that goes back to Robert E. Howard, but I was equally drawn to the raw brutality of Kentaro Miura's *Berserk*. Red Sonja trusts experience over optimism, instinct over theory, and she's earned every scar she carries. She doesn't walk into danger expecting answers. She walks into danger prepared to fight her way back out.

Once those two personalities started sharing scenes, everything else became surprisingly easy. I don't think readers remember crossovers because two universes collided. They remember them because two unforgettable personalities did. That's where I wanted the story to live.

We don't want to spoil things for readers, but can you tease us a bit about the plot and how these two heroines actually cross paths here?

HOMERO: Without spoiling too much, I can promise that neither of them expected their days to go in this direction.

Both characters are drawn into a mystery that's much bigger than either of their worlds, and by the time they understand what's happening, turning back is no longer an option.

One thing that mattered to me from the beginning was making sure this never felt like one character visiting the other's series. They're both absolutely essential to the story. They each bring something the other simply doesn't have, and solving the mystery requires both of them to step outside everything they thought they understood.

Diego Yapur is drawing this series alongside you and the rest of the team. Fans have been able to catch a glimpse with his cover for this series since we announced it early. Can you speak to what he's bringing to the table with your scripts so far?

HOMERO: Working with Diego again has been one of the biggest joys of this project.

After *Rome Eternal*, I already knew how talented he was, but every new collaboration reminds me why I enjoy working with him so much. Diego has incredible storytelling instincts. He understands pacing, acting, composition, and he always knows exactly where the reader's eye should be. As a writer, that's a luxury because it lets me concentrate on rhythm, dialogue, and emotion instead of trying to over-direct every panel.

Then Fares Maese comes in with the colors and adds another layer entirely. He gives every environment its own atmosphere while making the transition between worlds feel completely natural.

Watching the script become finished pages is still one of my favorite parts of making comics.

Both Red Sonja and Barbarella are known for a kind of flirty, risqué attitude as characters and in their stories often. How much is that an ingredient in what you and the team are cooking together, or are you playing it more straight with the genre elements?

RED SONJA / BARBARELLA WRITER HOMERO RIOS

HOMERO: I don't think you can separate those qualities from either character because they're part of who they are.

Barbarella's confidence, humor, and sensuality have always been central to her personality. Sonja approaches those same situations from a different place, which made their interactions incredibly fun to write.

For me, those elements only work when they're serving character. The flirtation, the humor, the occasional tension – they all tell you something about the people involved. They're never there just because it's expected.

Honestly, one of my favorite parts of writing this series has been watching Barbarella and Sonja challenge each other. Sometimes they completely disagree. Sometimes they surprise each other. Sometimes they surprise themselves. Those moments became some of my favorites in the entire series.

VAMPIRELLA…IN PARADISE?

FAN-FAVORITE FRANCHISE SCRIBE THOMAS SNIEGOSKI BREAKS IT DOWN!

Tom, you've been putting Vampirella through the ringer in recent years. When you returned to the character again in 2019, you picked up where your original run from the 1990s left off – with her death! Which resulted in an apocalyptic outcome for the rest of Earth. Our last series was called *Armageddon*, and it echoed that tone. Now this book is called Paradise? What kinds of shifts does that portend?

TOM: First off, I'm not getting soft here. I still plan on continuing to put our vampiric heroine through the ringer! When I was conceiving and writing *Vampirella: Armageddon*, I saw the opportunity to bring things full circle, to kind of tie up the continuing plot thread that had run through all my Vampirella writing since the nineties. It was daunting to think of, but at the same time kind of exciting because I wasn't 100% sure how I was going to accomplish this, but as I wrote things started to present themselves and I took full advantage. The title alone – *Vampirella: Armageddon* – was my chance to really shake things up...Armageddon, the final war between the forces of light and darkness! But with final, apocalyptic battles, there comes an ending, and this is where I saw the potential for something new. I thought to myself that after all Vampi has been through, all the trials and tribulations, the violence and the tremendous loss, what if "somebody" decided to cut her a break? What if somebody decided to reward her for all that she has done, all that she had endured? That's the origin of the title *Vampirella: Paradise*, but there's way more going on than you may initially think.

We're guessing things are not quite as rosy as they seem... And we hear that both the Mad God of Chaos and the fan-favorite Blood Red Queen of Hearts are back on the scene ready to continue their corruption and torment of the Daughter of Drakulon. You've actually not tackled the latter rogue as much as one might think. Do you have favorites in Vampirella's cast or foes, and any others you feel you haven't had your full say with to date?

TOM: I love the villains from the old run, there's a real nostalgic fun in using them and putting my spin on them as characters. But, at the same time, I really enjoy coming up with new bad guys for her to encounter. I don't think I've done that quite enough lately and have decided to put my thinking cap on and come up with some really new and creepy baddies going forward. Sure, you'll have the tried and true villains that you love to hate, but there definitely will be some new villainous characters coming up in Vampi's not too distant future.

Armageddon artist Edu Menna continues his ongoing run with you, re-upped for the next chapter. You've worked with a deep bench of talented artists through your time with Vampi. What makes Edu a great match for these latest tales?

TOM: Edu is amazing! I've worked with all sorts of fantastic artists, and the thing I love is that each of them brings their own special look and identity to the title. When I see their work for the particular series, I try and shape the story to fit their styles, and Edu is just knocking it out of the park. I think we're getting a Vampirella series that really doesn't look like any of the others that I've written. Edu's work reminds me of the black and white magazine material from the original Vampirella run in the 70's. It's really striking.

We love bringing this up when we check in to get your reaction. You're just barely short of coming up on 120 issues of chronicling Vampirella. We've even been doing some top secret work internally and looking back at your original Harris era with you... Does it feel as natural as breathing at this point? And what helps you still keep it a blast for yourself and the readers?

TOM: It always amazes me how much Vampirella I've written. She's been part of my professional writing career for basically as long as I've had a professional writing career! I don't think I ever really expected to have the kind of relationship I have with her. Initially, way back when in the '90s, I thought I would write her for a bit and move on, but the more I wrote her, her world, and the many characters that she interacts with, I found a nearly never-ending source of material. Just when I think I might be done, she pokes me in the brain and says, "What if we did *this?*" I love the opportunity to come up with new stories that continue to excite me, and hopefully excite fans. I know I've said this before in other interviews, but writing Vampirella brings me great comfort. It's like slipping into a nice warm sweater on a really cold day.

On that note, we got the chance to announce this series in person for panel goers at San Diego Comic-Con with you there. Though dedicated readers caught the tease at the end of Armageddon of course. How was it connecting with some readers at the show?

TOM: I think I piqued their interest/curiosity when I talked about bringing things to an end that I started in the 90's with *Armageddon* so that I could bring about a new beginning for the character with *Paradise*. They have no idea what they're in for!

SPECIAL MANGA STYLE ISSUE!

Reeling from the effects of her therapist's prescription medication, Vampirella enters a world of her own creation combining ancient tradition with political futurism. When the benevolent king of mystical Escala is murdered, Vampirella must honor the tradition of *wüde* –"Martial Virtue," the warrior's ethical boundaries of respect, honor, and humility – to take responsibility for the crime, even if it forces her to hunt down the man she loves.

This wild and exotic departure from Vampi's normal continuity is being presented in the Manga tradition, with the book reading from back to front and panels flowing from right to left. In addition to a new stunning cover by fan favorite Lucio Parillo, Vampirella #8 will also feature the talents of Derrick Chew, Joseph Michael Linsner, Elias Chatzoudis, and cosplay by Rachel Hollon and Dilemmatown, as well as special back cover art by Nishi Lee (*Destiny NY, Teenage Mutant Ninja Turtles*).

Written by series regular CHRISTOPHER PRIEST and introducing exciting newcomer ZIYAN QIU on art, this **MANGA STYLE** issue will run **right to left** and in **black and white** with color accents!

CRITICAL ACCLAIM FOR VAMPIRELLA

"[Christopher] Priest shows just how he's an expert at the craft and what magic can be created by trusting your artist. Whether you're a longtime fan or a reader just wondering where to start, this book is perfection personified. An absolute bona fide standout..." –Nerd Initiative

"A strong, stylish, character-driven launch that leans into family dysfunction, visual storytelling, and emotional unease instead of playing it safe. Christopher Priest is still out here reminding folks why veteran creators matter, Davis Goetten brings the cinematic punch, Giovanni Caputo adds atmosphere and elegance, Willie Schubert keeps the machine humming, and Dynamite deserves a nod for continuing to let this corner of the line stay bold, weird, and alive." –Comic Crusaders
